PROFESSIONAL SUMMARY

Full Stack Developer (MERN) experienced in building and shipping production web apps, including an AI-powered study platform that generates flashcards and quizzes from student-uploaded PDFs across all subjects and languages. Skilled in React.js, Node.js, Express.js, and MongoDB, with working knowledge of Java, system design, and AWS/Docker. Delivered a live client website independently, end to end.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), TypeScript, Python, C++, SQL

Frontend: React.js, Vite, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, REST APIs, GraphQL, Socket.io, JWT Authentication

Databases: MongoDB, MySQL, PostgreSQL, Firebase

AI / LLM Integration: Claude API, OpenAI API, Gemini API, LangChain, Prompt Engineering

Cloud & DevOps: AWS (EC2, S3), Docker, Git, GitHub, CI/CD

Testing & Tools: Jest, JUnit, Selenium, Postman, VS Code, IntelliJ IDEA, Figma, Claude Code / AI-Assisted Development

Core Concepts: Data Structures & Algorithms, OOP, Design Patterns, Microservices, System Design

PROJECTS

BIAN AI — AI-Powered Study Platform

2026

Tech Stack: React.js, Node.js, Express.js, MongoDB, Firebase, Claude API

- Built a full-stack study platform that lets students upload PDFs and automatically generates flashcards and quizzes from the content using AI, supporting every academic subject and multiple languages.
- Designed the end-to-end pipeline: PDF upload and parsing, AI-driven content extraction, and dynamic flashcard/quiz generation with an interactive study interface.
- Implemented user authentication, subject-wise content organization, and a responsive React front end for seamless studying across devices.

Repository: github.com/deepakrai9813/AI_PROJECT

Institute Website — Freelance Project (SAN BROTHERS Corporate Solutions)

2026

Tech Stack: React.js, REST APIs, Responsive UI

- Independently designed and developed a complete institute website end-to-end using React.js, from UI design to deployment.
- Built responsive, user-friendly interfaces and integrated frontend components with backend APIs to deliver a fully functional live site for a real client, while working full-time as a Data Entry Associate.

Full Stack E-Commerce Website

Personal Project

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a responsive e-commerce application with user authentication, product management, shopping cart, and order handling.
- Structured RESTful APIs for product and order operations with a MongoDB backend.

Personal Portfolio Website

Personal Project

Tech Stack: HTML5, CSS3, JavaScript

- Built a modern, fully responsive portfolio site to showcase projects, technical skills, and certifications.

EXPERIENCE

Data Entry Associate — Uno Minda — Lighting Division

Feb 2026 – May 2026

- Maintained high-accuracy operational and production records in a fast-paced industrial environment.
- Strengthened attention to detail, workflow management, and documentation practices under strict process standards.
- Collaborated cross-functionally with production and quality teams, while independently developing and delivering a freelance client website (see Projects) during this period.

EDUCATION

Bachelor of Computer Applications (BCA)

Expected 2027

Ganga Institute of Technology and Management — Currently Pursuing

Leadership: National Cadet Corps (NCC) — developed leadership, discipline, and teamwork through structured training.
